Operations Project Manager Notes

Welcome to the Operations Project Manager Community

Whether your District uses the term Operations Manager (OM) or Operations Project Manager (OPM), you function in a key role to accomplish the Corps' Operations and Maintenance mission. You may manage a single project or a number of projects within a watershed or geographic area. You may even reside in a District office. You may be responsible for a number of different business lines or just one. Regardless of your title or situation you can benefit greatly from sharing success stories and challenges with your peers, as well as taking advantage of technical research and resource leveraging. This site provides a variety of resources to help you do just that and more.

 in reference to [All Documents](#) by Kathleen Perales/USACE on Nov 22, 2004 3:36:21 PM

Take a look at the files and make changes if you like...
 The program will keep track of changes and I am the only one to merge documents after you say you are DONE!
