April 24, 2016

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: U.S. Army Corps of Engineers (USACE) Participation in Dredging Industry Safety Events

1. Every year, more than 80,000 workers suffer an injury on construction job sites across the U.S. Any one incident is one too many. Life is too precious to not make safety the number one focus in the U.S. construction industry. That's why over 40 national and global construction firms comprising The Construction Industry Safety Group and the Incident and Injury Free CEO Forum have joined forces with a single aim: to inspire everyone in the industry to be leaders in safety.

2. I am requesting your support and participation in safety events scheduled by our partners and sponsor of our projects in 2016 including the dredging industry safety events which begins this month, and continues through the calendar year. Please visit www.safetyweek2016.com for information regarding specific events you and your staff may be interested in participating.

3. Questions regarding this request can be directed to Mr. Albert Y. Wong, Construction and Operations Safety Program Manager, HQUSACE Safety Office, at (202) 761-8565 or Albert.Y.Wong@usace.army.mil.

STEVEN L. STOCKTON, P.E.
Director of Civil Works
